

The elfa logo is written in a bold, red, lowercase sans-serif font. A registered trademark symbol (®) is located at the top right of the 'a'.

Everything can be organized

A photograph of a well-organized closet with a light pink background. The closet features a silver metal hanging rod with several dresses and blouses hanging from it. Below the hanging area, there are three white mesh drawers on the left and two white mesh shoe shelves on the right. The shoe shelves hold two pairs of shoes: a pair of brown high-heeled shoes and a pair of white low-heeled shoes. In the bottom left corner, there are several stacked cardboard boxes, some of which are open, and a pair of beige knitted socks is draped over them. A small, round, textured object is also visible on the floor next to the boxes.

Quick guide

to getting organized

16 ready solutions to get you started

World class storage from Sweden

We produced our first drawer as early as the 1950s. If you have ever used Elfa products before, you have surely discovered what makes us unique. Our products are made with attention to every single detail. The stable and durable construction guarantees top of the line storage solutions.

- Scandinavian design
- Complete storage solutions
- Easy to change over time
- Easy to assemble

Start your Elfa closet as easy as 1-2-3

Select

Pick one of our ready solutions suggested in this brochure.

Ready solutions, page 4-14

Buy

Order by solution article or pick'n buy directly in store using pick-list.

Specifications, page 4-14

Install

Our products are super easy to install – everything hangs on the top track.

Assembly instructions, page 15

► **More smartness, page 16-19**

The ready solutions

in this brochure are based on Elfa wall hang system for 2400 mm floor-wall height and 470 mm depth.

Note! Clothes on hangers on the rod will increase the depth to 600 mm.

Pick a ready solution to match your specific storage needs.

Top track

Can be cut to desired width.
The recommended width includes a security margin of 10 mm per side of the hang standards (when placed between walls).

Security margins info, page 15.

Interior colour:

All solutions are available in white and platinum.

Interior width/section:

45

60

90

= 451mm = 607mm = 902mm

The sections consists of fixed widths - here illustrated with symbols 45, 60 and 90.

See full assortment per width in our pricelist or at elfa.com

Décor

Décor is our most exclusive line made of birch veneer. Available in varnished-, walnut stained- and white lacquered birch.

Décor colours:

Birch Walnut White

Sections with cuttable products

Top track, wire shelves and closet rods, are all cuttable. Storage sections containing only these products can be cut to fit exactly to your space width.

(Preferably by using a hack saw)

Top track width: 1350 mm

Made to measure

Our interior is available in a variety of measurements to suit your required width, height and depth.

Top track width:

Cut and combine to your required width. Always include the security margins. Security margins info, page 15.

Hang standard height, available in: 508, 924, 1212, 1532, 2012, 2140, 2300 mm.

Bracket depth, available in: 320, 420, 500 mm.

Interior width, available in: 451, 607, 902, 1212 mm.

Sliding doors

We recommend a minimum depth of 675 mm to provide sufficient space for doors and interior.

Interior with extendable functions should not be placed behind the door joint.

The ready solutions suitable for sliding doors are marked.

Visit your dealer

Bring your measurements to your dealer.

They can help you design the solution with both interior and sliding doors. The dealer also places the order for you.

Install

The top track is the only thing mounted to the wall

1

Start with the top track

Attach top track with the small notches up.
Use a level for a straight result.
Top track can be cut to desired length.
Add the required security margin before cutting.

You will need:

- ☒ Level
- ☒ Drill
- ☒ Screwdriver
- ☒ Screws

The rest hangs on the top track!

2

Hang standards

Place hang standards onto the top track (in the small notches) and drag into place.

3

Brackets & Interior

Hook brackets in place. Choose from dozens of shelves, baskets, shoe racks and other smart features.

► Assembly movies on elfa.com

Smartness of the top track:

Two small notches

Attach top track with the small notches up. They allow the hang standards to be inserted properly.

The folded edge

Prevents the hang standards from jumping off the track if pushed.

Security margin

When placed on open wall:
Add a safety margin of at least **50 mm** on both sides of the hang standards.

Security margin

When placed between walls:
Add a safety margin of **10 mm** on both sides of the hang standards. (Make sure to keep the notches when cutting).

More smartness!

You can add more details to fulfill your specific storage needs. And you can always continue to modify your storage as life changes.

Great solutions to enjoy every day!

A bracket tray helps you keep track of your small items.

Click-in melamine shelves create a solid surface for multiple storage or decorations.

Freestanding with birch Décor

Closet rod holder

Attaches the closet rod to the storage system.

Shelf hook

Place an extra hook wherever you need one.

Valet rod

Perfect for hanging storage in narrow spaces.

Closet rod

For hanging clothes in several different lengths.

Door and wall rack basket

Creates space where there simply was none.

Gliding pant rack

Pull-out rack. Gives a good overview of your skirts and trousers.

Gliding wire drawer

Perfect for all storage. Available in three different heights.

Label holder

Snap on a wire shelf for identification of the content.

Gliding shoe shelf

The perfect choice for your flat shoes.

Gliding shoe rack

The perfect choice for your high heel shoes.

Cover up in style

Even though everything is organized you still might want to cover it up. Our broad and flexible range of sliding doors does just that. To be able to use your space efficiently, all our sliding doors are made after your specific measurements. They will fit both your style and your room.

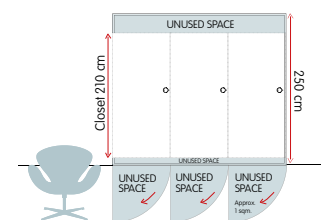

Find your style

Look for our brochure "Colour Collections for sliding doors 2016-2017" in your store or at elfa.com

There you will find inspiration and carefully selected colour combinations to personalise your sliding doors.

Sliding doors vs traditional wardrobe

- With sliding doors you can use all space from floor to ceiling.

- Sliding doors do not require free space in front to open. Your furniture can be placed right in front of your wardrobe.

Storage

Swedish world class storage since 1948

What once started with a simple dish rack has now evolved into more than 500 products, for all rooms of your home.

There is only one original - Elfa!

Elfa products are manufactured with a feel for every detail. The robust, durable structure guarantees first-class storage solutions offering lifelong quality.
